

BUILDING PERMIT FEES

Revised 5/20/19

FEES: Permit fees vary depending on the type of permit and the associated scope of work. The building department uses International Code Council (ICC) Building Valuation Data to calculate permit fees.

IMPORTANT NOTES: The building permit fee may not be the only fee you face for certain work. New commercial and residential construction will be assessed Impact Fees through the permitting process to collect Police, Fire, Public Facilities and Parks & Recreation (residential only) impact fees. Additionally, the City's Utilities Department will assess impact and tap fees for connection to the City's water and sewer system.

Exterior projects within the City's Historic Districts require receipt of a Certificate of Approval prior to permitting. A "Planning/HDC" application will need to be submitted prior to submitting a permit application.

KEY CONTACTS: The Building Department will guide your application through appropriate reviews with other departments. For instances of new construction and the installation of irrigation systems, please contact the City's Utilities Department at 904-310-3420 to discuss fees associated with connection to the City's water and sewer system.

New home construction will require the following permit and/or fees:

- ****Utilities impact fees** - Utility impact fees and connection fees are assessed and collected independent of and **prior to permitting**. Contact the Utilities Department at 904-310-3420 for more information (see details below).
- Address assignment (\$10) – *this is done through the Fire Department **prior to permitting***
- general building permit
- roofing permit
- trade permits
- driveway permit (\$35 fee – no separate permit required)
- Zoning review fee (flat fee of \$100)
- School impact fee (\$5,430.60 – assessed for Nassau County per new residential unit)
- *Municipal impact fees (\$3.952/conditioned sq. ft., see details below)
- Mobility impact fees: New home - \$1,150 / Condo \$712 / Apartment \$807

Impact Fees (new construction and additions)

***Municipal**

- Police	\$0.264
- Fire	\$0.360
- Public Facilities	\$0.443
- Parks & Recreation (residential only)	<u>\$2.885</u>
Total:	\$3.952

*Municipal impact fees are calculated by heated area for residential projects and floor area for non-residential projects:

Residential heated area is the floor area of a residential structure that is designed to be provided with heat and/or air conditioning and is not gross floor area of the structure.

Nonresidential floor area is the total area of all floors of a non-residential building as measured to the exterior walls and including halls, stairways, elevator shafts, attached garages, porches and balconies, open areas, decks or walkways not covered by a roof and which are used for some business related purpose.

Mixed Use projects: If a building permit is requested for mixed uses, then the impact fee shall be determined by apportioning the space committed to residential or non-residential use and applying the above definitions/fees.
