Dear Mr. Martin,

I wanted to Thank You, and the Community Development department, for putting on the outstanding "Elevation Certificate Basics" seminar on October 25, 2017, taught by Del Schwalls. Angie Lester did a wonderful job organizing the event and I am extremely impressed with the community outreach efforts she continues to demonstrate.

The subject matter Del Schwalls taught in the seminar would be beneficial to any local homeowner, business person and government official to learn. I highly recommend offering this course again and perhaps encouraging the public to join. Understanding what flood zones really mean, and the importance of the flood elevation certificate will help our community save money, build smarter, and improve our rating with the Community Rating System.

Again, I thank you for encouraging our city officials to put on educational seminars, and I hope to see more like this in the future.

Thank you,
